Schoology Access Information

For middle school and high school we use an online service called **Schoology** (pronounced SCHOOL – uh – jee) to help teachers, parents, and students communicate regarding studies and other classroom activities, including grades.

With your unique username and password, you may view academic records for students. Other users cannot access your family's information.

For more information on using Schoology at Lancaster Mennonite, please visit <https://www.lancastermennonite.org/schoology/>

You can access Schoology for the following:

- Communicating with teachers
- Daily grades for grades 5-12.
- Upcoming assignments and tests for grades 5-12
- School-wide messages and events

Our goal in using Schoology is to increase communication between parents, students, and the school. By default, you will need to sign into Schoology in order to see your messages. If you want these messages forwarded to your email or phone you can:

- Sign into your Schoology account as a parent
- Select the pull-down arrow at the upper right corner of the screen next to your name
- Select Settings
- Select Notifications
- Select the notifications of interest

You are always welcome to contact teachers regarding assignments and grades. If you need technical help to access your student's online information, please email support@lancastermennonite.org
