

OUR FUTURE
IS TOGETHER

WE'RE EXCITED TO UNIFY GRADES PREK-12TH IN ONE LOCATION AT THE 95 ACRE LANCASTER CAMPUS ON LINCOLN HIGHWAY

We are excited to share about upcoming changes at Lancaster Mennonite for the 2022-23 school year. With thoughtful consideration of our students and families, our staff and our programming, we have decided to unite our three campuses beginning in the fall of 2022, bringing Locust Grove and New Danville to join the Lancaster Campus (Lincoln Highway location). **Our goal is to create a community that is united, empowered, and inspired together.**

We're envisioning a campus where we can bring the best of our school together for every student. **See the unique aspects of the Lancaster campus, and the new features that are coming for next year!**

WE HOPE YOU WILL JOIN US!

Want a private tour? Contact Admissions at: 717-740-2429 or admissions@lancastermennonite.org -OR-
Join us for an upcoming Open House. Visit: lancastermennonite.org/OpenHouse to register.

Elementary School (Grades PreK-4th):

The elementary students will be located in the Rutt Academic Building with two elementary streams, one English track and one Spanish Immersion track. This building was chosen specifically for elementary students because of its location and classroom layout, bathroom and handwashing access for young children, playground location, separation from and yet accessibility to middle and high school students and other areas on campus, like the Gyms, Dining Hall, Fine Arts Center and music and art options.

*Rutt Academic Building:
New Elementary (PreK-4th)*

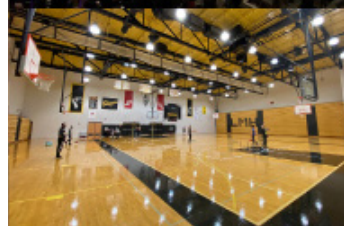

*Janet and Calvin High
Fine Arts Center*

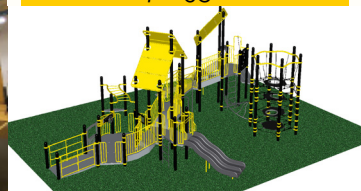

Mill Stream on campus

New elementary classroom

New playground

New science labs

New HS & MS Offices

Middle School (Grades 5-8th):

Middle school (MS) students will be located in the newly renovated lower level of the '64 Classroom Building. Their classrooms location will shift slightly from the current space under the Dining Hall to be more centrally located on the lower level of the '64 Classroom Building. There will be a design lab, project spaces, and a science lab. While 5th grade is housed with the middle school, their classes will be self-contained. Grades 6-8th will have a cohesive curriculum (see the Middle School brochure for more information).

High School (Grades 9-12th):

High school (HS) students will continue in the newly renovated 2nd floor of the '64 Classroom Building and the south end of the lower level with larger classrooms. HS and MS offices have moved from the south end to the north end of the '64 Classroom Building, under the Alumni Dining Hall. The former office space will become math classrooms. New science labs will be built, and the Media Center is in a new space in the north end of '64 Classroom Building. The Family and Consumer Science department has moved to recently renovated classrooms on the second floor of the G. Parke Book Building.

We are excited for everyone to be together, and for the opportunities our 95-acre Lancaster campus gives for PreK-12th grade programming, STEAM activities, outdoor learning, art, music, electives, and growth!

FUTURE TOGETHER!
