Accredited by AdvancEd and the Mennonite Education Agency

Lancaster Mennonite School admits students of any gender, race, color, national and ethnic origin to all the rights, privileges, programs and activities generally made available to all students at the school. The school does not discriminate on the basis of gender, race, color, national or ethnic origin in the administration of its educational policies, admissions policies, scholarship programs and athletic or other school-administered programs.

MORE TIME, MORE GROWTH

EARLY CHILDHOOD  
EDUCATION  
PRE-KINDERGARTEN AND KINDERGARTEN

# PREKINDERGARTEN

PreK is offered five full days per week and parents can choose a three-day (M, T, Th), four-day (M-Th) or five-day program. Must be four years old and potty trained by September 1 to attend.

## STUDENT-CENTERED ACADEMICS

PreK lays the foundation for success in school and life. Action-based learning stations, free play, guided play, and structured lessons help students develop social-emotional and academic skills, while building upon the child's natural curiosity to develop a love of learning at an early age.

## THE LM DIFFERENCE

Our PreK program balances developmentally appropriate academics, learning through play, and a faith formation emphasis. Students in PreK are guided to consider how they can love and care for each other and live peacefully. Bible lessons from the *Encounter* curriculum focus on the life and ministry of Jesus and relate to children's families and faith communities.

## HANDS-ON INVESTIGATION AND PLAY

Our PreK program uses *The Creative Curriculum*, designed to foster creativity, discovery, and critical thinking through hands-on, project-based investigations. Students spend most of the school day learning through play in the classroom and on the playground, developing important social skills and independence.

PreK students also have music class once a week, and recess two times a day to provide additional ways for them to develop, explore and build relationships.

## TOP-NOTCH TEACHERS

All teachers are certified and participate in ongoing early childhood professional learning in line with current research on child development. Our PreK program is licensed by the state of Pennsylvania.

## PREK COUNTS

LM is a PA PreK Counts provider, offering high-quality, tuition-free PreK for income-eligible families (funding provided by the State). LM recognizes the impact that affordable PreK has on the success of students and our community. Other scholarship opportunities are also available.

# KINDERGARTEN

Kindergarten is offered five full days per week. Parents can choose a four-day (M-Th) or five-day program. Students must be five years old by September 1 to attend.

## MORE TIME, MORE GROWTH

LM's full-day Kindergarten program balances an academically rigorous literacy and math program with built-in time for play-based learning and imaginative play. Our kindergarteners learn math by counting, measuring, comparing and discovering patterns in everyday life through hands-on activities and games. They develop literacy through a systematic, sequential program of foundational skills that lead to meaningful comprehension of level-appropriate texts.

In addition, kindergarteners engage with concepts in science and social studies that connect to their learning in math and language arts while providing the opportunity to use design thinking and the MakerSpace area.

In every aspect of learning, students grow cognitively and socially so they are prepared for future success.

## KINDERGARTEN CHILDREN RECEIVE:

- Language arts
- Mathematics
- Faith formation
- Science
- Social Studies
- Handwriting
- Art & MakerSpace
- Music
- Physical Education
- Recess
- Free Play
- Chapel
- Busing (only available for Kindergarten, not PreK)

## VALUES-BASED & RESTORATIVE PRACTICES

Reflecting our faith and core values, teachers create a nurturing environment in which young children know that they are loved by God and are valuable members of a community. Students are encouraged to follow the model of Jesus as a way to live so that they love their neighbors and seek to be peacemakers. LM strives to incorporate restorative practices in our classrooms and school so that even young children can learn how to reconcile and restore relationships. Students encounter Jesus as the center of our faith, community as the center of our life and reconciliation as the center of our work.

### Spanish Immersion Program

There is an optional track for students beginning in kindergarten. See the Spanish Immersion booklet for more information.
