## INTERNATIONAL STUDENTS ASSOCIATION

The LM International Students Association ("ISA") is a club for students from all nationalities, including the USA, to connect, share experiences and support each other. It offers leadership and volunteer service opportunities to enrich the students' lives and the lives of others. Through ISA activities, students develop inter-cultural competencies which are critical for global citizens to be successful in the world today.

### TUESDAY MEETINGS

Every Tuesday, ISA members connect through inter-cultural programs, games and snacks.

### FIELD TRIPS

Exploring the U.S. through fun excursions creates an excellent opportunity for both local and international students to deepen their friendships outside the classrooms. ISA students have enjoyed field trips to New York City and other local places of interest.

### MINI COURSES

We realize that many significant lifelong skills and interests are developed outside the classroom setting. Mini courses are for grades 9-12 and provide opportunities for students to learn with their peers and teachers and benefit from teachers' expertise and creativity.

Mini-courses are a minimum of three days and may include overnight trips or day trips for those three days. Students may count school-led summer trips as their mini-course prior to their junior or senior years. Mini-courses focus on an academic area and/or service and occur every other year. Students receive a pass/fail grade for 0.25 credit.

***"There are three words  
I would use to describe  
Lancaster Mennonite's  
dorm advisors: kind,  
caring and cool"***

Ivan Kuliashov, Belarus 

## **DORMITORY LIVING**

Our school has a dormitory, Millstream Hall, which offer a great opportunity for students to prepare for the increased independence and responsibility of college life, and to share their own unique background and experiences with others.

The dormitory has adults serving as resident advisors whose role is to provide support for each boarding student's welfare, academic progress and personal growth. A "dorm council" of residential students provides leadership opportunities to create a community that is caring and cohesive. A strong community is built through evening and weekend activities including shopping trips, movie nights, pizza parties, concerts, park picnics, local tours, college visits, community services, and much more.

Residential students have access to facilities on campus, such as the sports center and library. The dormitory is also within walking distance of several restaurants, shopping malls, banks, and hair salons.

## HOMESTAY

Host families are available for students who prefer an enriching experience living with an American family and learning the culture. Host families are arranged through local agencies in the U.S. which match students with registered host families. Each qualified host family must pass a selective screening process, undergo a thorough background check, an interview and home visit from the local agencies to ensure they are suited to welcome international students into their family and home.

## LOCATING A HOST FAMILY

Lancaster Mennonite School does not arrange for host families or homestays. School policy is that all host families of LM students must be arranged and supervised by an approved local agency. If students do not have an approved agency overseeing and providing support to their host family, they will be required to board in the school residence hall.

## RESIDENCE HALL OR HOST FAMILY?

Being in a residence hall/dormitory with other international students can be a great experience. However, students who stay with host families become more immersed in the language and culture. Also, host families treat their students as family members – involving them in activities, excursions and household responsibilities.

## CULTURAL IMMERSION

Homestays can provide a more authentic cultural experience. Depending on the level of involvement that you choose to have with your host family, a homestay can present an opportunity to experience daily life in the USA.

## LANGUAGE SKILLS

Living in a dormitory, you may encounter a concentration of people who speak your language. But living with a host family will force you to use English with native speakers in many settings. Your adopted family can help you practice your language skills.

## A HOME AWAY FROM HOME

With family and friends in a distant time zone, a homestay family can serve as your support system. If you allow yourself to develop relationships with your hosts, you can open yourself up to life-long friendships and connections abroad.

## THE DISADVANTAGES OF A HOST FAMILY

If you opt to live in a homestay, you may feel isolated from other students. You could be further from the center of town and school activities, and you may not be able to visit friends easily without an automobile.

Key questions to ask yourself before choosing:

1. Do I want to live with other students like me?
2. Is learning the language and customs important to me?
3. Am I comfortable living in someone else's home?
